

Suman Maity

Howrah, India | +91 8597433833 | suuman.maity@gmail.com

Professional Summary

Final-year B.Tech Computer Science student with hands-on experience in Full-Stack Development, Java, and AI-powered web applications. Built scalable MERN applications, AI-powered Applicant Tracking Systems, browser-based coding assessment platforms, and real-time communication systems. Proficient in React.js, Node.js, Express.js, MongoDB, Java, REST APIs, WebRTC, Socket.IO, Google Gemini AI, Docker, JWT Authentication, and modern software engineering practices.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO

Database: MongoDB, Mongoose

AI/Tools: Google Gemini API, Docker, Cloudinary, PDFKit, Monaco Editor, Git, GitHub, Postman

Languages: Java, C++, C

Education

B.Tech in Computer Science & Engineering

OmDayal Group of Institutions

Final Year (Expected 2027)

SGPA: 7.64/10 (Till 6th Semester)

Experience

Web Developer Intern – CodeAlpha

Oct 2024 – Jan 2025

- Developed responsive web applications using HTML, CSS, JavaScript and React.js.
- Built reusable UI components, integrated REST APIs and collaborated in Agile development.
- Debugged, tested and optimized application performance.

Projects

TalentAI – AI-Powered Resume Search, ATS & Technical Evaluation Platform

MERN Stack, Google Gemini AI, WebRTC, Socket.IO, Tailwind CSS

- Engineered an AI-powered ATS automating resume parsing, candidate ranking, skill extraction and recruiter summaries.
- Architected a weighted ATS scoring engine using technical skills, role classification, academic metrics and boundary-aware keyword matching.
- Developed an AI coding assessment platform with Monaco Editor and secure JavaScript/Python execution sandbox.
- Integrated WebRTC video interviews, screen sharing, Socket.IO signaling and automated PDF offer letter generation.
- Implemented Gemini multi-model fallback, MD5 file deduplication, secure PDF streaming and JWT authentication.
- Built a secure end-to-end recruitment workflow with AI-generated technical assessments, candidate shortlisting, role-based access control, email notifications, and automated PDF offer letter generation.

Code

Live Demo

BaatCheet – AI Powered Real-Time Chat & Collaboration Platform

MERN Stack, Socket.IO, WebRTC, Google Gemini AI

- Built a scalable real-time messaging platform supporting JWT authentication, media sharing, typing indicators, emoji reactions and read receipts.
- Integrated Google Gemini AI for chat summarization, live translation, smart replies, sentiment analysis and AI code review.
- Developed WebRTC audio/video calling, browser screen sharing, collaborative whiteboard, disappearing Ghost Ink messages and 24-hour Status stories.
- Added PWA support, customizable chat themes, voice effects, multiplayer mini-games and advanced privacy controls.
- Optimized real-time communication using Socket.IO, Cloudinary, MongoDB and REST APIs for low-latency collaboration.
- Designed a modular client-server architecture with secure JWT authentication, scalable REST APIs, optimized Socket.IO event handling, and efficient state management for low-latency messaging.

Achievements

Runner-Up – OMTECH 2026 Hackathon

Developed an innovative software solution in a competitive hackathon and secured Runner-Up position.
